# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **Northern Region**

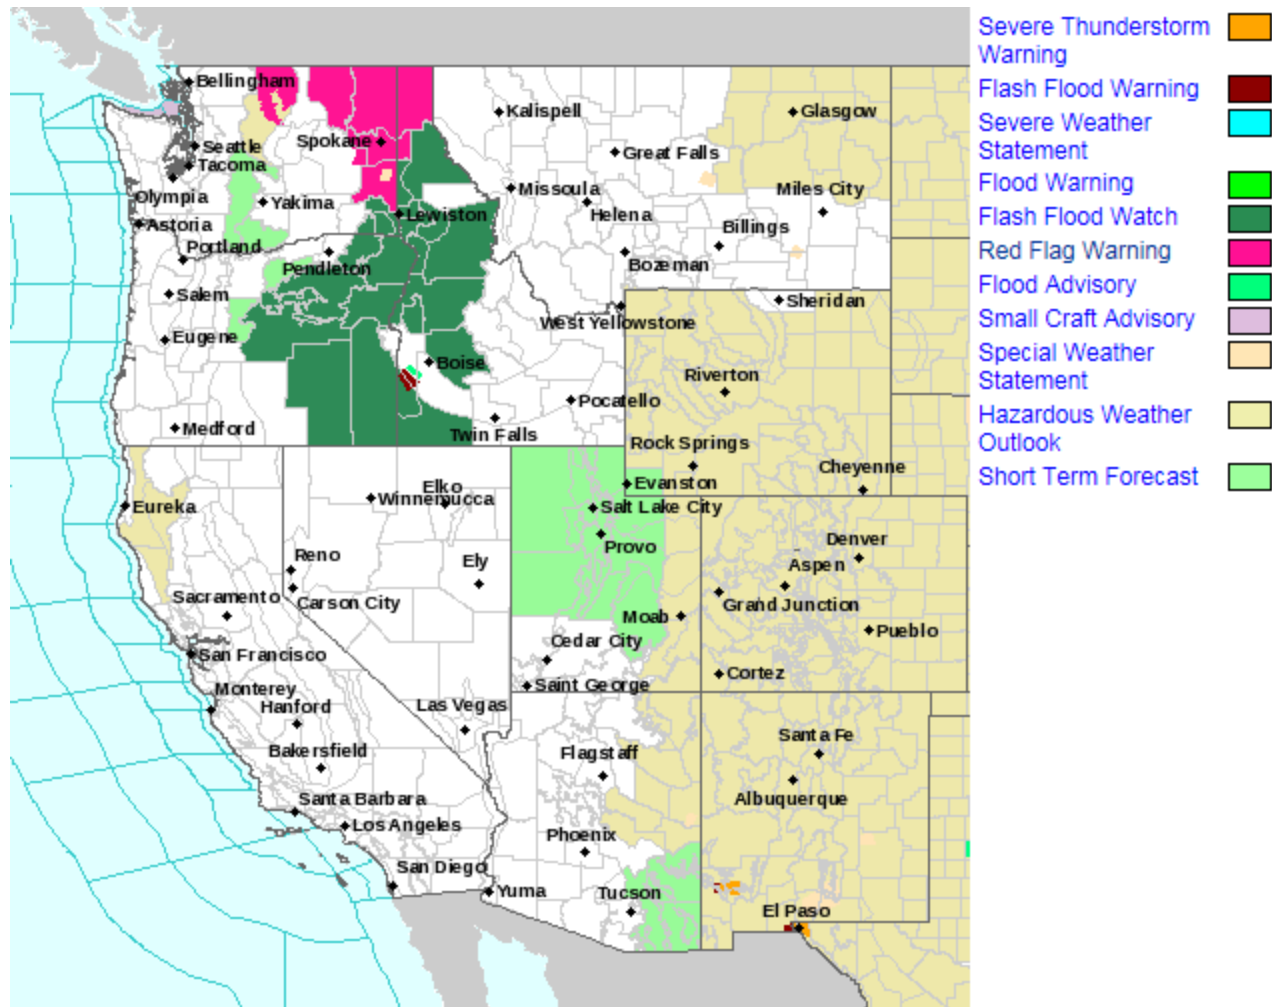

Low pressure over Central California will weaken today and move NE tonight into Oregon. However, the resulting wet unstable air mass will allow scattered to widespread showers and wet thunderstorms mainly over the higher terrain today. Nearby lower elevations will also have a chance of rain. A direct hit from a strong storm can yield up to an inch of rain. A low pressure trough will remain along the west coast Saturday through next week. Scattered showers and wet thunderstorms are still expected to be scattered over the northwestern and northern mountains on Saturday and only isolated in far NW California on Sunday. On Monday a few showers or thunderstorms may develop near the Oregon state line in the afternoon. Otherwise, next week looks dry with a gradual warming and drying trend. The west coast trough will produce moderate S to SW winds over higher terrain and east of the Cascade-Sierra crest on Monday, but those winds will decrease throughout the week as the trough weakens. The other main effect from the trough will be a deep marine layer in coastal areas and seasonal temperatures inland.

### **Southern Region**

Some leftover moisture from the area of low pressure that moved through Central California yesterday will bring isolated showers and thunderstorms to the Sierra through Saturday. Temperatures will remain well below normal today as another low pressure area spins over Northern California, with 60s to low 70s in the mountains and mid 70s to mid 80s in the valleys. Minimum humidity will be above 30% away from the deserts today. A trough off the West Coast will weaken as high pressure over the southeastern states moves westward to Texas bringing a warming and drying trend to the area this weekend. Temperatures will rise to just below normal levels and minimum humidity away from the deserts will drop to 15% to 30% by Sunday. There will be little change in the weather Monday from Sunday then temperatures will cool slowly Tuesday through the end of next week as the high pressure over Texas moves a little to the east. Isolated to scattered afternoon showers and thunderstorms will form over the Sierra Wednesday through the end of next week as another area of low pressure forms off the Central California Coast. Westerly afternoon winds of 15 to 25 mph with gusts to 40 mph will surface across the desert passes through the end of next week. The marine layer will shrink after today, but morning low clouds and fog will make it into most coastal valley locations through the end of next week.

# SITUATION SUMMARY

## NORTHERN OPERATIONS FIRES

### **SHU Lightning, Vegetation Fire, Shasta Trinity Unit - Final**

Location: Shasta Trinity Unit

Jurisdiction: State DPA, SRA

Start Time: 1741 hours on 07/08/15

Per CAL FIRE as of 07/10/15 at 1037 hours:

- 9 fires, brush and timber, 100% contained

### **Ascot, Vegetation Fire, Solano County - Final**

Location: Lake Herman Road X Sky Valley Road, Vallejo

Jurisdiction: SRA/LRA

Start Time: 07/10/15 1356 hours

Per CAL FIRE as of 07/10/15 at 1620 hours:

- 40 acres grass, 100% contained

# SITUATION SUMMARY

## SOUTHERN OPERATIONS FIRES

### DEER, Vegetation Fire, San Luis Obispo County [New](#)

Location: Southwest of Lake Nacimiento

Jurisdiction: SRA

Start Time: 07/10/15 1241 hours

[Per CAL FIRE as of 07/10/15 at 1623 hours:](#)

- 45 acres, 0% Contained
- Moderate Rate of Spread
- 77°, 45% RH, 16 mph Southwest wind
- Limited Ground Access

### Lake, Vegetation Fire, San Bernardino County

Location of Incident: Jenks Lake, Hwy 38, Barton Flats area

Jurisdiction: FRA

Start Time: 06/17/15 at 1600 hours

Per CAL FIRE, Cal OES Duty Officers and ICS-209 as of 07/09/15 at 1840 hours:

- 31,359 acres, 98% contained
- Patrol and monitor, perform suppression repair
- Fire Management Assistance Grant (FMAG) was submitted on 06/18/15 and after review by Cal OES, does not currently meet FMAG criteria and is on hold at this time.
- Resources: 335 personnel assigned

### **Medical/Health**

- Until Further Notice - The Mojave Desert Air Quality Management District has issued a Smoke Advisory for Yucca Valley and Morongo Valley due smoke from the nearby Lake Fire.

### **Proclamations**

- San Bernardino County updated their proclamation of a local emergency with a request for a Governor's proclamation and a Presidential Declaration of a Major Disaster. [On 7/10/17 at 1320 hours, the CSWC received San Bernardino's ratified proclamation for the Lake Fire.](#)

# **CAL OES 2014 DROUGHT**

## **Cal EOC Incident – 2014 Drought**

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Regions (Inland, Coastal, Southern) will consolidate and have one collective OA drought call Monday's at 1100 hours beginning 07/06/15 facilitated by the SOC.
